RE: **PETITION NO. 836** – Waterside Power LLC petition for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction and operation of a permanent peaking facility located at 17 Amelia Place, Stamford, Connecticut.

Dear Attorney DeTore:

The Connecticut Siting Council (Council) requests your responses to the enclosed questions no later than February 28, 2008. To help expedite the Council's review, please file individual responses as soon as they are available.

Please forward an original and 15 copies, and a .pdf file on a compact disc, to this office. In accordance with the State Solid Waste Management Plan, the Council is requesting that all filings be submitted on recyclable paper, primarily regular weight white office paper. Please avoid using heavy stock paper, colored paper, and metal or plastic binders and separators. Fewer copies of bulk material may be provided as appropriate.

Yours very truly,

S. Derek Phelps

Pre-Hearing Interrogatories
February 15, 2008

1. Describe contact with municipal officials, community groups and State Representatives and Senators regarding the current petition to make the Waterside facility a long-term facility. Please include dates and names of contacts.
2. Describe Waterside's compliance with new Department of Environmental Protection air emission standards.
3. Identify maintenance milestones for the turbines at the proposed facility. Is there a point at which the turbine would have to be replaced?
